

*It's Not Right! Neighbours, Families & Friends for Older Adults*

Adult Abuse Warning Signs & What You Can Do

# Community Presentation

Adult abuse is a serious problem in Canada. Neighbours, friends, and family members are first to see warning signs, but often don't know what to do about it.

*It's Not Right!* is a presentation intended to educate and engage all Canadians on the issue of older adult abuse and neglect. After this presentation, you will:

- Recognize warning signs and risk factors of adult abuse and neglect.
- Learn small, practical steps that add up, and make a difference in a life, and in the community where you live!

Let's work together to create a community where everyone feels safe, respected, valued, and supported.
