It's Not Right! (INR)
&
Gatekeeper

***It's Not Right!* Neighbours, Friends & Families**

Representing the very best collective thinking in Canada for public education on abuse and neglect of older adults, *It's Not Right!* was originally developed by The Centre for Research & Education on Violence against Women & Children (CREVAWC) at the University of Western Ontario.

BC CRN is the authorized provider of this program in British Columbia.

An *It's Not Right!* workshop/presentation consists of short videos interspersed with discussion.

Let's talk about ageism, the signs and risks factors of senior abuse, and keeping each other safe.

This program is for anyone in the community who wants to learn more about adult abuse and neglect, and the small, practical steps one can take to help.

Gatekeeper

Gatekeeper is considered a best practice for identifying vulnerable adults, and connecting them to critical community services.

Originally created by a Ray Raschko, a social worker in Spokane, WA in 1978, this program has since been adapted by organizations all over the world.

Gatekeeper is a presentation or workshop that encourages discussion. All participants receive a reference manual.

In this workshop, learn the signs of abuse and neglect, and how to **correctly refer individuals to the appropriate agency.**

This program is for anyone who is in **regular** contact with seniors or vulnerable adults as part of their daily routines, activities, or work.
